### GENERAL SITUATION

Until Sunday evening, moist and unstable southwesterly currents will flow in. On Monday, a front from the north with cold air at altitude will bring instability. Then, a high-pressure system over the North Sea and a low-pressure area over Eastern Europe will draw in decidedly cold and dry northerly currents.

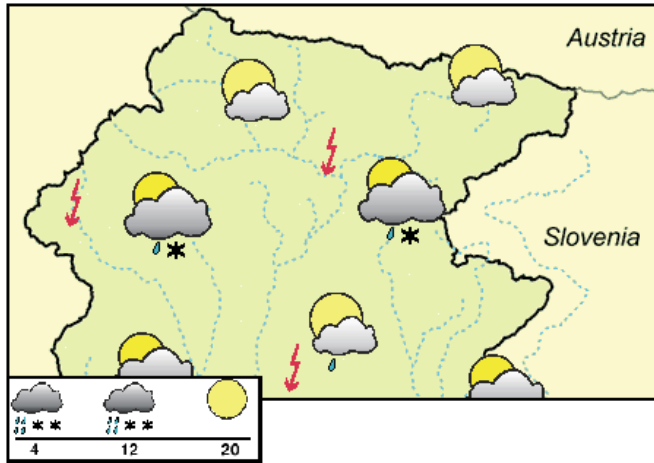

### SUNDAY, 16 March 2025

Reliability 60%

At night, widespread moderate to heavy precipitation, with snow levels at around 1200-1500 m, temporarily lower. During the day, mostly cloudy skies with possible residual scattered precipitation.
